

23rd World Conference of Banking Institutes

Growth and Sustainability in an Age of Disruption

Dear Sir/Madam,

As you already know, the global banking and finance industry is going through a period of unprecedented change.

The fallout from the 2008 global crisis is still being felt and a debate on the role of finance in global society continues. Technology is changing customer expectations and, combined with regulatory reform, is opening up the market to new models. Shifts in the political landscape are challenging established trade relationships. Even the nature of money is changing, as are the skills and roles that banks need to operate and grow their businesses.

The 23rd World Conference of Banking Institutes (WCBI) will explore **Growth and Sustainability in an Age of Disruption**. It will give you the opportunity to discuss the most pressing issues of our time and our industry with industry leaders, bankers from across the world and professionals from the banking and finance sector.

Presented by The London Institute of Banking & Finance, the WCBI will take place on Monday 16 and Tuesday 17 September 2019 at the Guildhall in London, and is organised with the support of the Department for International Trade, the City of London Corporation, and City & Financial Global.

Please see the WCBI website for the full conference programme, a list of confirmed speakers and to book your place. The link to the WCBI website is <http://www.wcbi2019.com>

We hope that you will be able to attend to share best practice and discuss the most significant challenges and opportunities facing the global banking sector today.

Kind regards,

Indian Institute of Banking & Finance
