

Certificate Examination in Customer Service & Banking Codes and Standards

Rules & Syllabus 2018

INTRODUCTION

Banking being a service industry has to keep quality of the services to their customers at the top of their priorities. The expectations of customers about the service offered by banks are different in different locations and geographies of our vast country. With the changing times, the expectations at all levels about the quality of customer service have undergone significant changes over last 3-4 decades.

These higher expectations have been more pronounced after the opening of new private sector banks as a consequence of financial sector reforms in our country. Indian Banks especially the Public Sector ones have seen huge increase in their branch network during the last four decades. The unprecedented increase in branch net work has impacted the customer service due to varied demands on the banking industry from different sections of the society. Though banks have been taking needed steps for improving the customer service standards, looking to the need to retain existing ones and to attract new customers, there is always a scope for improvement. Due to the different levels of standards that are available there is also a need for bringing uniform standards of service across the branches / banks. This would enable all bank customers to enjoy standard levels of customer service in any bank or branch of their choice.

SUPPORT FROM BCSBI

In order to meet the expectations of the customers and to render quality service by bank employees, the Institute has launched a certificate course in customer service in association with Banking Codes and Standards Board of India (BCSBI).
