PROGRAMME ON
“Next-Gen Compliance – KYC, AML & CFT
Essentials for the Digital Age”

BACKGROUND

During its 96 years of service, IIBF which is an **"Institute of the Bankers, for the Bankers and by the Bankers"**, has emerged as a premier institute in banking and finance education. Considering the emerging requirements of the bankers in the ever changing dynamic environment, IIBF has been providing training to bankers in select areas. IIBF has world class training facilities at its Leadership Center, Mumbai. It also has four Professional Development Centres (PDCs) at Mumbai, Delhi, Chennai & Kolkata with residential facilities at Delhi to accommodate more than 50 participants at a time.

PURPOSE

While AML and KYC are closely related, there is a difference between AML and Know Your Customer (KYC) rules. In banking, KYC rules are the steps institutions must take to verify their customers' identities. AML operates on a broader level; they are the measures, institutions take to prevent and combat money laundering, financing terrorism and other financial crimes. Banks use AML and KYC compliance to maintain the safety and security of the financial institutions, as well.

Anti-money laundering (AML) refers to the laws, regulations and procedures intended to prevent criminals from disguising, illegally obtained funds as legitimate income. Though anti-money laundering laws cover a limited range of transactions and criminal behaviour, their implications are far-reaching.

Anti-money laundering awareness rose to global prominence in 1989, when a group of countries and organizations around the world formed the Financial Action Task Force (FATF). Its mission is to devise international standards to prevent money laundering and promote its implementation. In October 2001, following the 9/11 terrorist attacks, FATF expanded its mandate to include combating terrorist financing.

This programme envisages confidence building among the participants, by improving their knowledge & skills in the area of KYC and AML. The programme takes the participants through a logical journey, right from getting conceptual clarity on various aspects of KYC & AML to understanding intricacies involving implications to safeguard the Banking Institutions. This programme is unique as a trainee-oriented program, with more emphasis on interactions, sharing of experience and exercises, apart from the usual training methods.

OBJECTIVES

- To enhance knowledge of KYC and AML and their importance in day-to-day Banking transactions
- To know about the RBI framework and KYC policies
- To Know KYC requirements of various accounts and their risk profiles
- To learn more about the latest developments in KYC/AML front and good international practices adopted by global Banks
