About IIBF :

During its 96 years of service, IIBF has emerged as a premier institute in banking and finance education. IIBF has high class training facilities at its Leadership Centre, Mumbai. It has three Professional Development Centres (PDCs) at Delhi, Chennai & Kolkata.

About the Program**PURPOSE**

The purpose of ethics at workplace is to promote solidarity among colleagues, to encourage personal aspirations that are aligned with organisational goals.

An ethics manual in an organization helps in dispute and conflict management.

The moral dilemmas, the approach-approach conflicts are more easily resolved with reference to the touchstone of the code of ethics. It clarifies the organisation's expectations from the employee and vests on enshrining complete transparency.

Simultaneously, Governance in banks is a focus area of RBI's regulatory and supervisory efforts. While legal and regulatory architectures provide a broad framework to maintain depositors' trust, the trust needs to be grounded in good governance and ethical conduct of the institutions and their functionaries.

As we strive to become a developed country by 2047, financial institutions will need extraordinary amounts of financial resources to support growth. Raising these resources would not be a constraint for financial intermediaries with robust governance frameworks as they can command a governance premium.

From an ethical dimension, at a fundamental level, the key issues of corporate governance involve questions concerning relationships and building trust.

This Programme aims to address the efforts required at the organization level to develop and maintain culture build on defined ethics and develop understanding of employees to abide by the same, and also to discuss the components of Corporate Governance.
