PROGRAMME on “INTEGRATED TREASURY MANAGEMENT WITH BOURSE GAME”

BACKGROUND

During its 95 years of service, IIBF has emerged as a premier institute in banking and financial education. Considering the emerging requirements of the bankers in the ever changing dynamic environment, IIBF has started providing training programmes for bankers in selected areas. IIBF has world class training facilities at its Leadership Centre. The present programme on **INTEGRATED TREASURY MANAGEMENT WITH BOURSE GAME** has been designed especially considering the training needs of all newly Inducted treasury officers or those who are working in Treasury Operations of the banks.

PURPOSE

The program envisages confidence building among the participants by improving their knowledge and skills in handling treasury and risk management and in enhancing their awareness levels in this important area in the current volatile market conditions. The program takes the participants to a logical journey through the understanding of market environment, dynamics of the market, relevant regulatory guidelines, processing treasury transactions, control and compliance requirements. This dynamic programme is unique in its nature, as a trainee oriented program, with more emphasis on interactions, situation analyses, case studies, sharing of experience and exercises, apart from the usual training methods. During the course of the Program, the participants will be sensitized on the entire gamut of treasury functions and market risk management perspectives, enabling them to return to their work places with enhanced confidence to handle the portfolios.

OBJECTIVES

- To improve knowledge and skill in treasury functions and market risk management perspectives.
- To have comprehensive understanding covering the entire gamut of market environment, market dynamics, relevant regulatory guidelines, processing treasury transactions, control and compliance requirements.
- To develop competent functionaries in treasury functions and market risk management roles.
