One-day Online Workshop on
“Smart Banking with AI - A Deep Dive for Bankers”

BACKGROUND

During its 98 years of functioning, IIBF has emerged as a premier Institute in banking and finance education for professional bankers and aspiring candidates choosing banking as career. Considering the emerging requirements of the bankers in the ever-changing dynamic environment, IIBF started conducting training programmes for bankers in select areas. IIBF has setup world class training facilities at its Leadership centre in Mumbai for physical as well as virtual trainings. To address the growing need for bridging the skill gap among professionals, the Institute has established seven Professional Development Centres in Delhi, Chennai, Mumbai, Kolkata, Guwahati, Lucknow and Bengaluru, with the Delhi centre offering residential facilities that can accommodate over 50 participants at a time.

In the era of rapid digitization, Artificial Intelligence (AI) is transforming every facet of banking—from customer service and credit decisions to fraud detection and risk management. To stay ahead, bankers need to understand not only the opportunities but also the challenges of adopting AI responsibly. This one-day virtual workshop is designed to provide banking professionals with deep insights into AI-powered applications in banking, practical case studies, and hands-on strategies to leverage AI for smarter decision-making, improved efficiency, and enhanced customer experience.

PURPOSE

This programme aims to build a forward-looking mindset among bankers by deepening their understanding of Artificial Intelligence and its applications in the financial sector. The workshop will focus on how AI can enhance decision-making, strengthen credit assessment, improve fraud detection, personalize customer engagement, and optimize banking operations. Participants will gain actionable insights into practical AI use cases, emerging tools, and responsible adoption frameworks to drive innovation and efficiency in their institutions.

OBJECTIVES

The programme focuses on the following aspects:

- Enhancing understanding of Artificial Intelligence applications in banking
- Exploring AI-driven tools for credit assessment, fraud detection, and risk management
- Strengthening decision-making and operational efficiency through AI use cases and case studies
- Promoting responsible adoption of AI while ensuring compliance, transparency, and customer trust

CONTENT OVERVIEW

- AI in Banking: Trends, Opportunities, and Challenges
- AI-Powered Credit Assessment & Risk Scoring
- Fraud Detection & Transaction Monitoring using AI
- Personalized Customer Experience through Chatbots & Predictive Analytics
- Case Studies: Successful AI Adoption in Banking
- Responsible AI: Ethics, Compliance & Transparency

METHODOLOGY

The workshop will be delivered in virtual mode through expert presentations, live demonstrations of AI applications in banking, interactive case studies, and scenario-based discussions. Participants will engage in hands-on explorations of AI use cases, supported by practical examples and real-life banking scenarios.

TARGET GROUP

Bankers across Public Sector, Private Sector, RRBs, Cooperative and Foreign Banks including:

- Operational/Branch/IT/Risk/Credit/Recovery/Compliance/Admin Officers
- Cyber Cell Members and Internal Auditors
- Trainers and Faculty Members
