BACKGROUND OF THE PROGRAMME: Robust risk management is an integral component of the long-term viability of financial institutions. This is also critical for the sustainable development of the real economy. Negligence in managing risk can impact the internal business processes, growth and customer service. The goal of risk management is to maximize a bank's risk-adjusted rate of return, by maintaining credit risk exposure within acceptable parameters. Banks need to manage the risk inherent in the entire portfolio, as well as the risk in individual credits or transactions. Banks with a strong culture of risk management and ethical business practices are less likely to experience damaging operational risk events and are better placed to effectively deal with such events if they occur. Over two days, participants will work through the hidden risks in corporate credit appraisal, the upcoming ECL 2027 transition, climate risk in lending, and the psychology of sound decision making and risk conscious leadership.

OBJECTIVES

This programme has been designed to help credit and risk professionals strengthen two capabilities together:

1. Technical depth needed to assess corporate credit risk in a fast changing regulatory and climate environment
2. Human judgment and leadership needed to apply that knowledge well under real pressure

PROGRAMME HIGHLIGHTS

- ✓ Two full days of expert led sessions, blending technical depth with practical, real-world application.
- ✓ A dedicated session on the ECL 2027 transition and what it means for daily credit and portfolio operations.
- ✓ A focused module on climate risk in corporate and SME lending, an increasingly important part of credit assessment.
- ✓ Sessions on decision making under uncertainty and risk conscious leadership, built around two practical frameworks.
- ✓ Realistic, case based group activities designed to bring each concept to life.

TARGET GROUP FOR THE PROGRAMME: Relationship Managers, Credit Managers, Risk Officers and Field Officers with a minimum of two years of core banking experience.
